Attachments: 17054.pdf

The Gov's office has now sent us this invitation. This is the one you indicated we would not attend. Should we send anyone from the Division? Do we want to send someone to this representing the state? Please review. Thanks.

Happy Friday!

Our office has received a request for Governor Snyder to attend the Karegnondi Water Pipeline groundbreaking ceremony. The Governor's schedule does not allow for his participation. Please have your department review the invitation and follow up with us if it is recommended a representative from your department attend this event.

Thank you,

Karen Confer
