Subject: Fwd: Recommendations Regarding Flint Water System and Legionella
Attachments: FWATF - Snyder Ltr 3_updated.docx; ATT00001.htm

Keith,

Could you or George K take the lead in drafting a response from the Governor? You have already reached out to EPA on point 1. I would suggest a call with TF member Eric Rothstein would be useful dealing with 3rd party outreach. Let me know if I can arrange that.

Be good to get back to TF by close of business today. Thank you.

Best,

Rich

I just received this email. Please promptly review it and its recommendations. Let's respond promptly.

Thanks

Rick
