Pursuant to the state Freedom of Information Act (MCL 15.231 et. seq.) I request access to and copies of the following:

- Any and all communications that pertain to the quarterly test results from December 2014 of the water in the City of Flint between any and all employees of the Michigan Department of Environmental Quality that were made between Dec. 1, 2014 and Jan. 1, 2015;
- Any and all records dated between Dec. 1, 2014 and Jan. 1 2014 that pertain to the routine quarterly testing of water in the city of Flint that was conducted in December 2014.

For the purposes of this request, "records" should include information of any kind, including letters, memoranda, notes, applications, completed forms, studies, reports, reviews, guidance documents, policies, documents, databases, drawings, graphs, charts, photographs, minutes of meetings, electronic and magnetic recordings of meetings. In addition, "communications" should include any correspondence, telephone conversations, telefaxes, and emails -- as well as any other compilation of data from which information can be obtained. Without limitation, the records requested include records at any stage of development, whether proposed, draft, pending, interim, final or otherwise. All such records are included in this request if they are **in the possession of or otherwise under the control of the Michigan Department of Environmental Quality.**

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am a journalist with the Guardian, and this request is made as part of news gathering and not for commercial use.

I understand that a fee will be assessed for copies of public records in the amount prescribed under state law. **I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please inform me first.** Fees must be limited to the actual costs of labor and copying, and the means for copying must be the most economical available, pursuant to MCL 15.234(1) and (3). Fees may only be assessed based on procedures and guidelines published by the Michigan Department of Environmental Quality. Also, I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

Should you decide to invoke a FOIA exemption, or any other exemption under statute, as the basis for withholding any record responsive to this request, please include in your full or partial denial letter sufficient information for me to appeal the denial pursuant to MCL 15.235(4)(a). To comply with legal requirements, the following information must be included:

- Basic factual material about each withheld item, including the originator, date, length, subject matter, and location of each item; and
- Explanations and justifications for denial, including the identification of the category within the governing statutory provision under which the documents (or portion thereof) was withheld and a full explanation of how each exemption fits the withheld material.

If you determine that portions of a record requested are exempt from disclosure, please redact the exempt portions and provide the remainder of the record to me.

I also request that records be provided in electronic format wherever possible, including but not limited to records that are stored or maintained, so as to reduce and avoid labor and printing costs related to photocopying records. I will provide a media storage device for the records at my expense.

Further, I understand that under state law, the Michigan Department of Environmental Quality has five (5) business days to respond to this request, and may issue a notice extending the time for ten (10) additional business days. Please produce the requested records on a rolling basis; at no point should the search for — or deliberation concerning — certain records delay the production of other documents.

If you find this request is unclear, please contact me immediately so I can clarify the request to simplify your compliance efforts.

Thank you for your assistance.

Sincerely,

Ryan Felton

Subject: Monitoring Results

Adam,

Good afternoon, I just wanted to pass some monitoring results to you. Attached below are the results from November 2014 Bromate monitoring, and our 4th quarter Radiological monitoring. We have also completed out 4th quarter WQM, I should be able to get those results to you by the middle of next week. Also, I thought I would give you an update on our Lead & Copper Monitoring. As of today I have received the results from 12 samples, and I have 39 more samples that should be delivered to the Lansing lab tomorrow (12/11). That will take us to 51 samples total. I have distributed a total of 110 sample bottles, and plan to distribute 25 more by the end of the week. This way I would anticipate being able to collect 100 total. If extra samples come in I will have them analyzed regardless. Enjoy your day, I'm sure I'll talk with you soon.

Treatment Rate and Filter Data

Maximum Treatment Rate:	<u>23.8</u>	Million Gallons per Day
Rated Plant Capacity:	<u>36</u>	Million Gallons per Day
Average Filter Run:	<u>74</u>	Hours
Average Head Loss:	<u>n/a</u>	Feet *(filter head loss meters not operational)
Average Filtration Rate:	<u>2.4</u>	Gallons Per Square Feet per Minute
Maximum Filtration Rate:	<u>3.2</u>	Gallons Per Square Feet per Minute
Average Wash Water Use:	<u>2.9%</u>	Percent of Treated Water

LANSING DISTRICT

Chemical Data

Chlorine on hand:	<u>20,000</u> lb.	Est. supply:	<u>30</u> days
Primary Coagulant (Ferric Chloride) on hand:	<u>54,000</u> lb.	Est. supply:	<u>18</u> days
Lime (CaO) on hand:	<u>296</u> tons	Est. supply:	<u>34</u> days
Fluoride on Hand:	<u>16,630</u> lb.	Est. supply:	<u>35</u> days
Cost of All Chemicals per Million Gallons:	<u>n/a</u> dollars		
Total Power Cost per Million Gallons:	<u>n/a</u> dollars		

Remarks

Confluence Point # 1 (N)

Confluence Point # 2 (S)

Number of filter confluence samples > 0.3 NTU:	<u>0</u>	<u>0</u>
Number of filter confluence samples collected:	<u>226</u>	<u>226</u>
Percent of filter confluence samples > 0.3 NTU:	<u>0.0%</u>	<u>0.0%</u>
Number of filter confluence samples > 1 NTU	<u>0</u>	<u>0</u>

Did any individual filter exceed:

1.0 NTU in two consecutive measurements taken 15 minutes apart?	<u>NO</u>
If yes, attach specific filter(s) information and indicate required follow-up status.	
0.5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation?	<u>NO</u>
If yes, attach specific filter(s) information and indicate required follow-up status.	
1.0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months?	<u>NO</u>
If yes, attach specific filter(s) information and indicate required follow-up status.	
2.0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months?	<u>NO</u>
If yes, attach specific filter(s) information and indicate required follow-up status.	

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? NO
 If yes, indicate date(s), duration, and individual filter grab sampling frequency on a separate sheet.

Did POE disinfectant residual fall below 0.2 ppm during the month? NO
 If yes, indicate date(s) and duration on a separate sheet.

Was minimum C*T credit achieved for the entire month? YES
 If no, indicate on a separate sheet the date(s) not achieved.

Was continuous POE chlorine residual monitoring equipment off-line during the month? NO
 If yes, indicate date(s) and duration on a separate sheet.

The reported result for Odor, Phenolics, Potassium, Specific Conductance and Total Residual Chlorine cannot be used for compliance purposes within the State of Arizona.

Notes:

- 1) Bottled water sold in the United States shall not contain Fluoride in excess of the levels published by the USFDA in 21 CFR Part 165.110. These levels are based on the annual average of maximum daily air temperatures at the location where the bottled water is sold at retail. Please refer to the most current edition of the regulation to determine the Fluoride maximum level that pertains to your product.
- 2) A blank on the FDA SOQ column indicates that no maximum level has been established by the FDA for that contaminant.
- 3) An ND result means that the contaminant was not detected at or above the detection limit for the instrument.

For a list of NSF International Method Detection Limits refer to
http://www.nsf.org/media/enews/documents/minimum_detection_level_spreadsheet.pdf.

update on Flint pbcu monitoring.

From: Michael Glasgow [<mailto:mglasgow@cityofflint.com>]
Sent: Wednesday, December 10, 2014 12:55 PM
To: Rosenthal, Adam (DEQ)
Subject: Monitoring Results

Adam,

Good afternoon, I just wanted to pass some monitoring results to you. Attached below are the results from November 2014 Bromate monitoring, and our 4th quarter Radiological monitoring. We have also completed out 4th quarter WQM, I should be able to get those results to you by the middle of next week. Also, I thought I would give you an update on our Lead & Copper Monitoring. As of today I have received the results from 12 samples, and I have 39 more samples that should be delivered to the Lansing lab tomorrow (12/11). That will take us to 51 samples total. I have distributed a total of 110 sample bottles, and plan to distribute 25 more by the end of the week. This way I would anticipate being able to collect 100 total. If extra samples come in I will have them analyzed regardless. Enjoy your day, I'm sure I'll talk with you soon.

The reported result for Odor, Phenolics, Potassium, Specific Conductance and Total Residual Chlorine cannot be used for compliance purposes within the State of Arizona.

Notes:

- 1) Bottled water sold in the United States shall not contain Fluoride in excess of the levels published by the USFDA in 21 CFR Part 165.110. These levels are based on the annual average of maximum daily air temperatures at the location where the bottled water is sold at retail. Please refer to the most current edition of the regulation to determine the Fluoride maximum level that pertains to your product.
- 2) A blank on the FDA SOQ column indicates that no maximum level has been established by the FDA for that contaminant.
- 3) An ND result means that the contaminant was not detected at or above the detection limit for the instrument.

For a list of NSF International Method Detection Limits refer to
http://www.nsf.org/media/enevs/documents/minimum_detection_level_spreadsheet.pdf.
