Subject: Lead crisis in Flint? Here are cities with even higher rates
Reply-To: <info@thecenterformichigan.net>

Far from Flint, lead remains an irreversible scourge

Lead poisoning rates have dropped dramatically in Michigan over the past decade. But in many cities and towns, child exposure rates far exceed those in Flint.

Sink or swim: Higher education is key to Michigan's future

A new report by education, business, philanthropic and government leaders says Michigan's rise to an elite state depends on getting far more students to graduate from college or obtain a technical certificate after high school.
