Ms. Rosemarie Olszewski,

Investigative journalist Curt Guyette is listed on the masthead of the *Metro Times* as a contributing editor to this well-established newspaper. He has covered the issue of Flint water extensively for us, and carries *Metro Times* press credentials that we have authorized so that he has no problem covering any event we assign him to cover. We have assigned him and no one else to cover the press conference being held today, Oct. 2, at Kettering, and see no legitimate reason that he not be treated like any other credentialed media representative. In fact, the only reason that we can see for him not being allowed to cover this event is an attempt by MDEQ to unconstitutionally censor an award-winning, well-established reporter from covering an event simply because his work on this issue has exposed a problem that MDEQ has consistently denied existed.

Again, Curt Guyette is a Metro Times contributing editor who is on assignment to cover this press conference. I have already called and informed your office, but am sending this email, well before noon, to ensure you get this message.

Sincerely,

Michael Jackman
