Subject: Remedies to water quality problems from Flint River water

Mr. Wurfel,

I was recently reading about the problems with the quality of drinking water coming from the Flint River. I work with a company based in Arizona called Soneera Water (www.soneerawater.com) and would like to offer our assistance. Please review the information from these webpages:

<http://soneerawater.com/product/technology/treatment-capability/>

<http://soneerawater.com/wp-content/uploads/2014/06/NATA-Results-Updated.pdf>

<http://soneerawater.com/product/after-technology-before-treatment-capability/electrofloculation/>

If you would like to discuss our technologies in further detail please reply to this email. I can arrange for you to speak with our CEO and COO. I am sure they can give you a good insight into some remedies you have not yet considered. Our thoughts are with you and the good people of Flint.

regards,
John Lesniewski
