To: Wurfel, Brad (DEQ)
Subject: Flint's water quality

I just finished reading the Detroit Free Press story in today's paper regarding Dr. Hanna-Attisha. You, sir, and your bureaucratic colleagues are the ones who were irresponsible. It's another example of cya. This time the lives of children were at stake. Let's hope that from this point forward, the DEQ can properly represent people at risk who are expecting protection from the state. And your name is on everybody's radar, Mr. Wurfel. People will expect nothing but accuracy from you and the department from now on.
