Subject: Technical Advisory Meeting

All,

I am confirming that our Technical Advisory Meeting will be this Wednesday October 7th at 2:00 - 4:30 pm at City Hall.

The meeting will discuss the emergence of the lead concerns and we will have up to date discussion around the immediate response of filter distribution.

There will be expert discussion about corrosion control, the DWSD option, how the long term solution of line replacement would unfold, and details on the status of KWA. The agenda will be distributed at the meeting.

We look forward to everyone's attendance, please email me with any questions.
