Subject: resignation

Mr. Wurfel,

As I read your statements today in the newspaper, your caring for the citizens of Flint and how that just didn't come through in your communications, I have to wonder what you were thinking. Your rudeness and arrogance towards citizens and experts was truly astounding. Given your words and demeanor, why would anyone think you care about the people of Flint or for that matter the citizens of Michigan? I am glad you have resigned as I don't think you had the welfare of the citizens as your top priority. I hope you take with you to your next job, whatever it might be, a new respect, compassion and understanding for people. I hope you have learned to listen attentively to what others say and have empathy for their plight - that our goal as humans is to help others in need not dismiss them and malign them. I hope you have grown as a person and realize we are all in this together.

Sincerely,

Ruth Wilson
