Subject: Flint water quality complaint

I forwarded the caller's message to Richard so he could also listen to it.

Steve: A woman who did not give her name, but I got the phone number by pressing XXXXXXXXXXXX.

She complains about a concern of Legionella in the City of Flint water supply, that people are dying because of it, that the local health department isn't doing anything about it. Action is needed now. There are lots of discussions on Facebook. People should have the right to drinking water that is right for them.

She called me after I had left for the day and indicated she would call me back today.

Can someone contact her?
