Subject: Final Edition of DEQ Update
Attachments: 2014 DEQ Update.pptx

Pat:

Attached is the final edition of the DEQ Update. I am planning to give this edition at the Rural Water Conference on March 21st. If you are still intending to use this as the basis for DEQ Update at the AWWA Spring Regional meetings, you may need to update the information about the fluoride study as more results come in, the impact on the retirements as people change their minds or the Michigan legislators make dramatic decisions impacting the DEQ's budget.
