Subject: RE: Resident Sampling Protocol

This has been updated on the DEQ website now.

It can be viewed here by clicking on the link:

http://www.michigan.gov/deq/0,4561,7-135-3313_3675_3691-9677--,00.html

Helpful Tools:

- The [Reporting Forms](#) Web page has links to the *Lead and Copper Report and Customer Notice of Lead Result Certificate*.
- [Sampling Instructions in Word](#) and in [Adobe Acrobat](#). Samples are collected by the resident after the water has sat undisturbed for at least six hours. This is usually first thing in the morning or after returning from work. Water supplies need to provide very clear instructions to residents so samples are taken correctly. Supplies may use these instructions.
- [Flow Chart](#) of monitoring requirements for medium and small water supplies. DEQ district staff can provide further details about this very complex drinking water regulation.
- The [Lead and Copper Rule Implementation policy](#) ODWMA-399-027.

Thanks,

Tracy Jo
