Subject: KWA Groundbreaking Photos

I finally figured out how to pull the photos and videos off my Iphone!

I copied a set of photos from the groundbreaking to the Lansing common drive (T drive for districts) along with a video clip of Liane's remarks to:

T:\Drinking Water and Environmental Health\Community Drinking Water\District Offices\Lansing District\KWA Groundbreaking

The Groundbreaking at the intake/low service site near Lexington was last Friday 6/28. Many of the pictures are of local politicians and KWA board. The site panorama doesn't really show you that a couple hundred people were there though you can see the cars in both directions along with the bus.

We also had news crews from CBS 5, ABC 12, and NBC 25.
