FYI, this doesn't appear to misrepresent data necessarily, but it may be something some of our water supplies are getting questions about (other than Muskegon).

I have any item for folks. We received a link to this website and questions about lead today through my City Manager's office. It maps the areas with high lead levels in children's blood. I send out an email about how we were in compliance with the lead sampling rules. I don't know much about the site or its source – I haven't had time to get into it yet.

To All:

I would like to invite you to the Doodle poll "West Michigan Supervisors Meeting – December 2015." Hope all had a Great Thanksgiving!!! I'm trying to sneak this in between the holidays and hoping to cash in on some more mild weather for traveling.

We are going to meet at the Stable Inn on US31 near Grand Haven. Easy access off the highway just in case we get that nasty weather.

Please follow the link in order to participate in the poll: <http://doodle.com/poll/8t4gpkt8ni2hdk8>

Thanks
