I'm not sure if you all have seen this; it would be great training for operators, LHD sanitarians, refreshers for engineering staff or new staff that conduct oversight of drinking water program.

Lead and Copper Rule 101: Requirements before an Action Level Exceedance Webinar

EPA's Office of Ground Water and Drinking Water is hosting a Lead and Copper Rule 101 webinar series. The first webinar will be on May 22, 2013 1-3pm ET.

The webinar on May 22, 2013 will be the first in the series and will cover the Lead and Copper Rule requirements before an action level exceedance, the second webinar of this series will cover the Lead and Copper Rule requirements after an action level exceedance and the third webinar will cover the Lead and Copper Rule reporting requirements and compliance determination under the LCR.

Specifically this webinar will provide an overview of key provisions of the rule including lead and copper tap monitoring requirements, how to calculate the 90th percentile level, requirements to inform the public, water quality parameter monitoring requirements, and requirements related to long term treatment changes and new source additions.

If you have any questions please email Francine St. Denis at st-denis.francine@epa.gov or call 202-564-3829.

We ask that you distribute the webinar invitation below to those in your network that would benefit from attending.

Space is limited.
