Jennifer,

I received the response from the Flint WTP staff...nothing from that person; however, a complaint from another resident on that street. Robert Bincsik just informed me that he is sending out a crew to flush several hydrants on that street to help alleviate the iron in the water.

No one here has spoke with this person, but Mike Glasgow did go to a Brooke Awad's house yesterday on Irene and sampled her water for chlorine and bacti. Her complaint was cloudy water.

Jennifer,

Below is the response from Water Service Center (WSC). The location was not in the BWA area; however, as Robert indicates, this person did not contact the WSC. Let's hold-off on calling her until I hear whether the Flint WTP staff has had any involvement with this complaint. Robert also indicate local contractors using hydrants improperly as a potential cause.

To my knowledge we never received a complaint from this address. This would've been south of the effected area and wouldn't have been in the boil water notice. I will have someone go out and flush the hydrants near this address but obviously I have to be made aware of the problem first in order to be able to fix it. I'm quite certain its iron she is seeing in her water and this has been a problem this year in the COF given all the demolition contractors using hydrants improperly.

Brent, Robert,

As part of my follow-up to EPA on this latest complaint, provide a summary of action taken and/or communication by the city to address Savanna Young's concerns?

Hi, Steve and Mike. Yep, have another Flint complaint. See below. Her water at the tap is brown as of this past Sunday. I thought Flint was flushing in the areas where the valves were closed? Not sure if this woman's address is close to that area. Have there been other complaints of brown water?

I plan to call her this morning and explain the valve issue. Could you also look into her complaint?

Jennifer

Jen: Can you please provide a response to this person? Inform her of the valve issue and that the water flow should improve. Was Flint flushing too?

HQ LEAD NUMBER: FY14-121728-3715-CV

SUBJECT: Referred to Region - Michigan

FROM: young.vannah@gmail.com

TO:

Name: Savannah Young

Address: 1423 Irene Ave

City: Flint

State: Michigan

Zip: 48503

Phone: 8108776343

Alleged Violator's Name: City of Flint, Water Dept.

Alleged Violator's Address: 1001 S. Saginaw St.

Alleged Violator's City: Flint

Alleged Violator's State: Michigan

Alleged Violator's Zip: 48502

Tip or Complaint: My Flint City tap water is brown. It cannot possibly be safe to drink. No person is available to discuss this issue with me, even after already having three boil water advisories in less than two months time. There has been no announcement made of this current issue, nor has there been any advisory to not drink the water. This has not been addressed or even acknowledged by the city. My neighbor has been having the same issue, and she has also not received any answers, acknowledgement, or regard for her lack of safe drinking water. I have bottled some of the tap water and plan on contacting the local college to request an analyses. I will provide a photo at your request. It is disgusting and they are not even informing the citizens that it is happening.

Specific Directions: The 1400 block of Irene Ave, off off of Miller rd.

Violation Still Occurring? Yes

State DEP/DEQ/DEM Notified? Yes
