See below - DAN can your team assist with daily updates to GOV for his nightly briefing so he is not up to date. Your team would be responsible for collecting info from other depts involved etc

Let me know if you have questions or concerns

Thanks

Thanks

Update from Dan in briefing. Comms to also send update for briefing on stories or announcements upcoming. But Dan will have most accurate testing and analysis details to report.

What is most effective accurate rout? Dan provided update for briefing each day or does Comms shop speak to DEQ Comms and provide?

We need a better update system re Flint Water.

I saw in the press this am that DHHS announced yesterday that water filters would start being given out today. This should have come internally with more detail. I had press questions last night.

Overall, we should have a daily report on Flint until our recommendations are fully implemented.

For example:

1. What are the water test results from the public schools?
2. How many free test have been requested? How many have been done? How many remain and how long have they been waiting? What are the results - no lead, lead consistent with history, higher levels?
3. How many filters have been distributed? How many unfulfilled requests?
4. New blood test results? Especially in the two zip codes.
5. Analysis of tech advisory group
6. Analysis of the GLWA vs. Flint River vs. KWA.

Thanks

Rick
