Subject: Flint Drinking Water TTHM Standard
Attachments: Flint-TTHM-Compliance.pdf

Senator Ananich and Representatives Neeley and Phelps,

Attached is a letter that was mailed to the City of Flint on September 2nd, 2015 regarding the return to compliance with the drinking water standard for the disinfection byproduct, total trihalomethane. Compliance with the standard has now been achieved at all 8 of the City's compliance monitoring locations based on monitoring in August 2015.

Please feel free to contact Steve Busch with DEQ at 517-643-2314 with any questions.

Thanks,
Sarah
