Subject: RE: Flint water questions
Date: Tuesday, September 22, 2015 5:50:00 PM

We need to get answers Wednesday. Someone needs to contact Flint and determine the validity of these claims without sounding too accusatory.

Did the city mail sampling kits to the same homes in the last two rounds of lead & copper monitoring? If not, why? Do they have a record that these sites have lead services or lead plumbing? If not, why did they certify them as meeting that criteria when they submitted the results? Did they tell Mark Edwards or anyone else that their sampling kits are distributed randomly? Did they mean randomly among lead service line properties?

Those are just the ones I can think up at this time. I'm sure there are others we could ask.

Mr. Wurfel,

Attached are a few questions regarding the MDEQ's oversight of Flint's Lead and Copper Rule monitoring program.

I would appreciate it if you would provide me answers by the end of the day Thursday, Sept. 24.

Feel free to call me either at work (313-578-6834) or on my cell phone (586-925-0493) if you have questions or need anything clarified.

Sincerely,

Curt Guyette
