Yes. Kory is requesting similar info for a different purpose. We'll send it to both of you.

Subject: Flint Water Data

George and Liane,

May I please get the lead and copper data for the city of Flint post April 2014 so that I have firsthand knowledge to answer some of the questions I'm getting from management. For example, I'm being asked about the filter capacity (NSF certifies the filters to reduce lead from 150 ppb down to less than 10 ppb) and about copper levels (out of concern for people with Wilson's disease who have trouble processing copper).
