Subject: Re: List of potential FAQ Questions
Date: Wednesday, September 16, 2015 11:16:58 AM

Here's our revised list of questions. We feel it addresses your questions or the answers fit under one of these questions

1. Provide the regulatory background/summary
2. Did the DEQ have concerns related to the switch from DWSD to the Flint River with respect to corrosion?
3. Is Flint conducting compliance monitoring correctly under the LCR?
4. What is the city of Flint required to do next to address corrosion control?
5. Where does lead come from and whose responsibility is it to address it?
6. What could be done to better inform and protect Flint residents?
7. What will happen when Flint switches to water from KWA?

These are our suggestions - you're carrying the water for this exercise!

Subject: List of potential FAQ Questions

Here is a list of potential FAQs. Let me know what you think.

What is the frequency of lead and copper sampling?
 Why are customers asked to collect lead and copper samples?
 How is compliance determined?
 Why are some samples not included in the compliance determination?
 When is customer and public notification required?
 What will happen when Flint obtains water from the Karegnondi Water Authority?
 What is the source of lead?
 Who is responsible for replacement of leaded materials?
 Why doesn't the City just replace their portion of lead service lines?
 What is the timeline for corrosion control treatment?
 What will it cost to have lead service lines replaced?
 How long will it take to replace lead service lines across Flint?
 How does blood level monitoring tie into customer tap water monitoring?
 How long has the City of Flint conducted lead monitoring?
 Has the City's compliance monitoring ever exceeded the lead action level?
 What is the goal of the Lead and Copper Rule?
