Subject: RE: Technical Advisory Team Information

Just using the standard EPA instructions, and giving the residents the wide mouth bottle...that would do it. That is our sampling protocol.

Marc

Subject: Re: Technical Advisory Team Information

I really like Lawrence's suggestion and believe this is an area where the Tech. Advisory Team (TAT) can provide assistance. I would like to suggest the this advisory panel develop a Standard Operating Procedure for sampling intended to fulfill the Lead & Copper Rule. I know there are excellent example protocols out there that we could build from but this is one way Flint can show leadership on this issue.

I think we can all agree that the methodology should include collecting first-draw samples without flushing in wide-mouth bottles, etc. Perhaps Marc Edwards, Darren Lytle or Michael Schock could provide a first draft? If preferred, I am happy to draft.

Sincerely,
 Shawn McElmurry

Subject: RE: Technical Advisory Team Information

Can this change be sent out in the testing procedure document so we can see it in context ?
 Thank you

Subject: Re: Technical Advisory Team Information

Andy,

We just recently converted to the new method with no flushing, the vast majority were done with the old procedure. Our original expectation focused on the thought of a new standard being put in place statewide for uniformity but eventually, through conversations with Darren Lytle we made the decision to convert in advance of any potential statewide changes.

Howard,

For clarity, of those hundreds of samples how many are with the flawed sampling method and how many are done with the appropriate sampling method?

Thanks,

Andy

Marc,

I believe that we agree with that message, we are planing to pursue all of the people who were sampled under the previous protocol and request that they submit to another round of testing with the new procedures. We have generated hundreds of samples this year and we intend to aggressively reach out to everyone for retesting. We are building a campaign that will continue to caution people about taking safe measures for drinking water but also produces neighborhood sampling pools that test several times throughout the course of the year in addition to tier 1 pools.

On Tue, Nov 10, 2015 at 5:14 PM, Marc Edwards <edwardsm@vt.edu> wrote:

No one should be told that if their water tested safe using the old MDEQ protocol, that it is ok to drink. I thought we learned that lesson already. The old sampling protocol is flawed.

Best Regards,

Marc

Subject: Re: Technical Advisory Team Information

Andy,

We changed the instructions late last week that called for flushing, all bottles are now going out with the new protocol attached. We are concerned that some people are still not removing filters from the tap so we are trying to focus on that aspect of communication as well.

On Tue, Nov 10, 2015 at 1:59 PM, Andy Leavitt <aleavitt@senatedems.org> wrote:
Hi Howard,

Can you confirm when Flint will move away from the testing mode that includes flushing?

Thanks,

Andy

On Mon, Nov 9, 2015 at 6:20 PM Wright, Michael <Wright Michael@epa.gov> wrote:

Howard:

Thanks for arranging the meeting today. I didn't catch all of what Natasha (and others) said on the line but I was intrigued when I heard her mention a fact sheet or some information on Lead that was taken from a city in MA. Can you/she forward that URL for our review and consideration?

During the last call, I also noted my concern regarding boil advisories during a lead emergency and wanted to provide a link that documented what I said about Lead (and nitrates for that matter) being concentrated upon heating.

http://water.epa.gov/drink/guide/upload/book_waterontap_full.pdf

Lastly, I couldn't hear who made the comment, but I agree that infants are likely the most vulnerable of concern. So, I was wondering if the clinicians/health practitioners in the room might consider partnering or spearheading an outreach effort to target expectant mothers with the Filters that are being provided. Not sure if this is best done via prenatal clinics, delivery hospitals, OB-GYN departments, or lactation management specialists, etc. The public health practitioners might also be able to use this emergency as another reason to advocate breastfeeding (vs infant formula).

Thanks,

Mike

Subject: Technical Advisory Team Information

All,

Enclosed please find the weekly update along with the agenda for next weeks Technical
 Advisory Committee meeting. The time and location remain at City Hall on the 3rd floor at
 2:00 pm. There is a conference call in number available and we have modified the speaker
 system to accommodate all those who call in. If there are any questions, please do not hesitate
 to contact me.

Dial-in Number:
