Importance: High

Hi Anastasia.

I've been talking to George offline about this account number and he suggested I contact you to get a 'Bill To' division for this account number in Navision so I can route the billing properly once the invoices are created.

Thanks,

Kathy Willoughby

Importance: High

Kathy,

Please see the PCA and Fund in Anastasia's note below. Can you please create an DWL account number so that we can pre-fill the paperwork?

These are for the Flint lead and copper samples at schools.

Please respond back to the group as a whole. Please make this a high priority as we need to get the sampling materials together quickly.

Thank you!
 George

Perfect. Thanks Sylvia!

Renee, please create a NFW PCA to hit Approp: 04526 Fund: 0001. Please title it "Flint Water Lab Svcs"

Carol/Dawn/Renee/Melissa: FYI -- we will be seeing a new appropriation shortly in the 04526 Lab appropriation. We are receiving \$1M to use for the Flint drinking water sampling activities.

Coding for Flint Lab Samples

Index: 45500
 Proj/Ph: 900040-00
 PCA: TBD -- see above request

Great news. Question: Although the PDF isn't available do you have the PA #? We'll need that to set up the PCA, since we don't have any GF/GP in the Lab right now.

Thanks!!!

Subject: Flint Water Supplemental

Anastasia,

The governor has just approved a FY16 supplemental for the Flint water issue. Here is the link to the house version of the Flint supplemental. The legislature website doesn't have the PA version out there yet.

<http://www.legislature.mi.gov/documents/2015-2016/billconcurrent/House/pdf/2015-HCB-4102.pdf>

RRD was appropriated funds as follows:

Approp 04526
Fund 0001 \$1,000,000

The funds are for additional testing at the state lab. The lab will need to know what coding to use for these tests. I am assuming that you'll identify the index, PCA, and use the department wide project number.

Please let me know if you have any questions on the supplemental. I would be happy to follow up.

Thank you,
Sylvia
