We had our annual audit by EPA R5 on the revolving loan fund program and our use of DWRF set-asides in May. In addition, we had our semi-annual call with EPA regarding the public water supply program this week. We discussed our upcoming commitments for FY16, and issues with the city of Flint. No significant items to report.

By June 10th please provide me with any broad issues that you would like the Director to bring up at the Region 5 all states meeting.

Roger, please provide a summary on where we are with BUIs and the future of further delistings of AOCs.
