Subject: DRAFT DELIBERATIVE. Daily Update

Action Step 8: Review corrosion control treatment plan and get any EPA comments.

Comments received late today from EPA were addressed and the letter to the city regarding operational and monitoring conditions related to corrosion control was finalized. An electronic copy of the letter was sent to the city of Flint and EPA.

Action Step 16: Confirm plumbing assessment and sampling is scheduled for Brownell and Eisenhower Elementary Schools:

LARA and DEQ staff conducted plumbing assessments at both Brownell and Eisenhower Elementary Schools. Sampling taps were identified and labeled. And a sampling sequence was recommended for each school. A briefing of the plumbing layout and sampling details was provided to the sampling teams. Two sampling teams will be deployed on Saturday to conduct lead/copper sampling at both schools and additional sampling will be conducted at Freeman Elementary School.
