Attachments: Flint Corrosion Presentation final.pdf

Attached is VA Tech's ppt discussion of the corrosion concerns in Flint and the comparison to Detroit water regarding corrosion. It would be more helpful to see the methodology of the study, actual data, and how samples were collected.

Subject: TAC Team Summary 10_7_15

All,

I want to personally thank everyone for participating in today's meeting, it is encouraging to see the commitment that exists to address the concerns around health. I apologize for the poor phone reception we experienced today, I will have that corrected at the next meeting.

I am sending a summary of today's meeting and have attempted to chronicle the highlights or major points that we discussed. I have also included an electronic version of Marc Edwards presentation and will forward any other documents that are requested.

Please look for continued communication from me as we work to move forward as fast as possible. I expect to have November and December dates selected very soon and will maintain the stream of information to this team as it becomes available.

Please do not hesitate to email or call me with any questions or requests.

Thank you,

--
