Subject: DRAFT Residential Drinking Water Sampling Protocol for EBL Investigations
Attachments: Working Draft - Collecting Samples for Lead at Residences for an Exposure Assessment
10Nov15.docx

Attached is a draft document for your review/comment.

We discussed last week a plan to key/code each location so that addresses would not be listed on the sampling forms in order to protect the anonymity of the residence. Do you want any discussion of this in the sampling protocol or do you want to handle that outside of the protocol? It's currently not addressed.
