Subject: Letter to Governor Regarding Flint Water

Good Afternoon,

Please see the attached letter that my office sent to Governor Rick Snyder earlier today. The letter contains a series of short, medium, and long-term requests to ensure access to safe drinking water in the City of Flint.

As I said in a statement to the press, my constituents and I believe the state must act urgently to provide concrete solutions to the public health crisis in the City of Flint. In speaking with Governor Snyder and his key aides today, I stressed the need to work together on a number of initiatives that will ensure safe water for Flint residents. My formal request included immediate and long-term solutions, and strong consideration for switching back to the Detroit water source until the Karegnondi Pipeline Authority project is complete. Anything less than an aggressive, comprehensive approach is simply unacceptable.

Please do not hesitate to contact my office if you have any questions. Thank you for your time and attention.

Sincerely,

The Office of State Senator Jim Amich
Senate Minority Leader
District 27
