I should add that Patti took a strong lead when the discussion turned to pulling the data for reporting. My opinion is that Bob would have a very hard time handling this alone.

Do we all still agree that we should proceed with plan as we discussed yesterday?

We had a meeting yesterday with my staff, Nancy Peeler, Bob Scott, Corinne and Patti McKane to talk about reporting the blood testing data. The meeting went well and I think we have a plan going forward to produce both a data heavy internal report and a simpler version for the public. We're aiming for a weekly report on Mondays, starting 9/1/15...likely in the afternoon so that we can capture any data from the weekend warehouse updates.

During the meeting Nancy mentioned they were planning to bring on another data entry person with some existing funds in her area (not from the supplemental). Not sure how/if this complicates the move. I do have 3 cubicles immediately available in my area on CVB 4th floor.
