Copying Janese Bouters as she typically distributes the SitReps, with Jacqui as back up.

Linda

Subject: daily situational reports

Jacqui- please add Dr. Jane Tuner to the daily Flint water situational reports. Dr. Turner is the Associate Medical Director for the Children's Special Health Care Services (CSHCS) program, I want to link her in in so she is aware of provider engagement efforts, and similarly, Dr. Turner will keep us apprised of provider engagement/enhancement efforts that she may be involved in within the Flint community.

Jane- if you have an update for the daily report, send to Linda Dykema. Thank you!

Sue
