I'm reviewing a long document from CSTE on mental health and substance abuse that I need to complete today. Can you give Janese a call when the sitrep is ready for review as I've turned away from my e-mail?

I think I should have sent these last Friday:

Under provider BLL testing:

Drafted HAN to Flint healthcare providers and will be referred for review to the project communications team and the local health department. The HAN encourages enhanced blood lead level testing for children less than six, particularly outside of the 1 and 2 years of age that are required by Medicaid.

Under epi and surveillance:

EPA, CDC, MDHHS, local health department call scheduled for later this week to discuss Legionellosis.
