I don't know if the "Tips for Flint Residents" is finalized, and I'm not even sure if I was supposed to look at it, but I have a few edits. Sorry, I'm totally OCD. Under #2, people can also just call 211 to get a filter (this can be added to all handouts for filter access). I'm not sure if it was literacy tested - some big words like accumulate, precautions, etc. Fine print at bottom is same as #1, can just add email to #1. I would also reword sentence under title to "Lead plumbing is common throughout Flint and in all homes built before 1986. Always follow the below steps to ensure safe drinking water."

Attached are my revisions to the parent letter. I tried to simplify and consolidate – it's in markup mode. I have a 8:15 meeting, but will try to take a stab at provider letter as well before 9am meeting

Hi all – draft letters for Providers and for Parents in Flint are posted in our Sharepoint folder called Flint Workgroup. We put them in both Word and .pdf formats, to assure you can open them. They are rough drafts, so please do add/suggest language where there are placeholders.

Appreciate if you can review and make comments/suggest edits. To find the letters:

Navigate to www.midppp.org

On the dark blue navigation bar, click on Workgroups & Toolkits

Click on the FLINT WORKGROUP folder

Importance: High

Hi everyone – per our morning conversation, we have created a folder on our Sharepoint site where we can upload documents that we might want to attach to the letters we discussed this morning:

1. Letter for Flint area parents with children in daycare, EHS/HS, GSRP, schools
2. Letter for primary care providers serving children from the Flint area

Please send any materials you think could be good attachments to Emily Houk (HoukE@michigan.gov). Emily is standing by to upload the documents to the folder.

To access the folder, please go to www.midppp.org

On the dark blue navigation bar, click on Workgroups & Toolkits

Click on the FLINT WORKGROUP folder – which is where we will post these materials

We agreed to review materials by Wednesday morning, 10am, to try to finalize the letters at that point.

We are drafting the letters now, will put the draft letters in the same folder, and I will email you once they are posted for your review and comment.

Thanks -- let me know if you have questions or problems accessing the folder.

Nancy

I am sorry but I have meetings at 8 and 9
Am. But it is more important that Nancy and Bob be available for the call along with others.

HI folks,

I thought I sent an email, but cannot find it. Toni and I can meet Monday morning by phone---**8 or 9 is better for Toni , she is busy at 10.** Need to follow up on the testing plan and begin to talk about case management, How about you all???

Today's draft- early next week the primary group will meet to plan case management planning. We will work on Nancy and Bob's questions in interim.

Wes- please advise as to exactly what information you would want to collect on any child getting a blood test/ in the event further case management or abatement is required-

Eden.
