Subject: Updated Timeline

Linda—this is the MDHHS Flint Water timeline, compiled from information discussed during our internal team meeting. The timeline is current through 12-30-15. The most recent update references the provider letter distributed by Medicaid on 12-30-15 -- Blood Lead Guidelines to Address the City of Flint Residents' Potential Exposure to Lead.

At this point, I think it makes sense for your area to be the "keeper of the timeline" and ensure that it is kept up to date, and maintain version control. Let me know if you have any questions.

Sue
