Subject: Re: Follow up from Lead Meeting

From the data perspective that captures it.

Definitely appreciate the effort Patti!

Dear Patti

Great job today with the phone call – you were clear, accurate and concise (as always). The goal is to get the one pager out Monday. (The zip code graphic is not going to be released as part of that.) We reconfirmed that report would be updated every two weeks.

There were some follow up items:

- 1) **ASAP Monday:** One pager Data Report - Children 6 to 18 Years Old with Blood Lead Levels "Total Number of children tested for lead 10/1/15" should be 287, correct? If not, why are we sticking with 289
- 2) Is it possible to compare the 244 children less than 6 years with BLL test high from 4/15/215 to 9/30/15 against the list of 147 children diagnosed in the same time period who needed follow up according to CLPP? The action plan for response has the 147 number and the group was trying to understand why those numbers would be different. Would you be able to work with Bob Scott on that or send the ids of the 244 to him?
- 3) Zip code level numerators and denominators and rates spreadsheet– Jennifer Eisner would like to have the suppressed spreadsheet so she is ready for questions and requests.

You know where to find me with questions. Linda and Corinne – did I miss anything?

Sarah
