Subject: Re: 2014 lead data

I didn't get a chance to ask Martha about Junaid's access today, although she may not know anyway as he is gone this week.

I certainly appreciate all the work you and Yan have done.

It sounds like they didn't use the numbers that Yan and I provided. I sent the 2014 files that we worked on to reconcile with Bob's last week. Glad that the data have been sent to the reporter. Did Junaid get access to the Lead Screening data?

Jennifer,

The 2014 blood lead testing data by ZIP code is attached. Beginning in January, blood lead testing data requests should be sent to Martha Stanbury. We are transitioning those activities from Patti McKane's MCH epidemiology section to Martha's section in Environmental Health.

In response to requests from reporters for lead testing data by zipcode: attached is a file of 2014 child lead data with numbers screened and numbers =>5 ug/dl by zipcode. Cell sizes less than counts of 6 are suppressed. Bob did include both venous confirmed and venous plus unconfirmed capillary in the attached spreadsheet.

I talked with Jennifer Eisner and here is what we need:

Only the 2014 data (not 2015 since we don't typically release a year's data before the year is completed), by zip code for all of Michigan with small cells suppressed. And only confirmed venous tests as CLPPP has done for previous years: we'll explain that we're including capillary tests in the Flint reports in an effort to capture all possible EBLL children.

Could I please have an estimate of when this can be done?

Ok, I deleted all the chatter in-between.

I believe the request is for annual 2014 and 2015 (not by quarter) for all Michigan zip codes (suppressing cells less than 6). The data provided should match what we're reporting to the Director/Governor, so retain the highest test whether venous or capillary.

Jennifer/Geralyn: is that accurate?

To clarify you want 2014 by zip code and quarter with retaining highest test? Or only highest venous test?

Im still in a meeting and may not get this done today. Will also talk to Yan to see if she is available.

All –

A reporter with Bridge Magazine is requesting the statewide 2014 (and if possible, 2015) CLPPP data. Bob sent me the attached county-level info for 2014 which I have not shared yet, as it's not the final report.

We would like to touch base to make sure the data has been finalized and reviewed by epi before it's posted online.

Eden – we'll reach out to you in the morning to discuss the media request. Beyond the data, the reporter is also interested in discussing home lead investigations.
