What numbers do you want: # and % >= 5 ug/dL? Number tested? Children <6?

Hi Bob:

We decided to use the 2014 data for our grant/target areas/

Thanks!
Carin

2014 is still not done—just the “preliminary” queried in February. That should be close enough for planning, but if you want to include any 2014 numbers in your application, please let me know. I’ll re-run the query to get you a more accurate number.

Subject: 2014 Report

Hi Bob and Karen:

Could you possibly send me your 2014 (or 2013 if 2014 is not yet available) Data Report on lead? We've just started writing our HUD grant to support the Lead Safe Home Program. We need to look at which areas currently have the highest number of EBL kids.

Thanks so much!
