Subject: Citizen Advisory Team Update
Date: Monday, September 28, 2015 11:19:19 AM

Dear Citizen Advisory Committee,

It has been some time since our last **citizen** advisory team meeting and we wanted to reach out at this time to those of you who were part of this committee and provide you direct information.

It was encouraging for us to successfully install the recommended Granulated Activated Carbon which led to the City being compliant with the Safe Drinking Water Act but we are now facing questions surrounding the amount of lead that is leaching into drinking water through plumbing and service lines in certain homes. A significant aspect of lead in drinking water is the public education that gives everyone a clear and proper understanding of how this occurs and what are the avenues to reduce the risk.

As we consider when it may be beneficial to reconvene another community meeting, we want to extend to everyone the opportunity to provide input, and to be aware of the latest information.

- Anyone requesting a water test can call 810-787-6537 or email flintwater@cityofflint.com
- Anyone requesting an opportunity to schedule a meeting can email jlorenz@cityofflint.com
- Anyone that wants access to more information can visit the water page of the City website

We are aware that many of you have indicated the desire to no longer participate in

this group but we still want to extend the opportunity for you to be involved and have access to information.

Please do not hesitate to email this group or **me directly** if you have any questions

--
