Updated and attached. Per Eden's OK, I've also shared this with Toni & Genesee County's partners for comment with instructions to not share externally until you've approved of it.

Thanks!

Sounds good. I would prefer without the background. Looks better with the logos.

I could, but I don't think it's necessary because we don't talk about water filtration on this fact sheet -- just testing to find out if they're at risk...

So I don't have to keep editing both -- do we have a preference between the one with the background color vs the one without?

Hi all:

The updated fact sheet with the 211 data included has been approved by Genesee Co and is ready to be updated on the Flint website...Thanks!

Hi Michelle,

The baby still looks extremely pixelated. Can we clean that up? If you can send me the design file, we can try to clean it up in our office.

As for the 'Action Flint template' are you referring to the Taking Action on Flint Water graphic the Governor's office has been using? That's not a template for anything so no, we won't be using it on our materials.

Thanks,

Angela

Hello all:

Attached is an updated version of the graphic. I needed to recreate it because apparently the VPN doesn't work unless you request the software to be installed, too. Who knew that was a separate process. Anyway, take a look and let me know what you think.

Genesee Co has also asked that we use the logo that I included on this version for all outreach items. I have to update the other FAQ flyer and then will resubmit it to them and to you all for updating on the website, please. That will come tomorrow...

Also, any thought on if you want me to use the Action Flint template for any additional fact sheets? If so, let me know and I can update the FAQs at the same time I'm updating the county logo. I'd need the template, however, please.

Thanks!

Yes, that is fine. Please make sure they understand that this is not the final version, and they should not be distributing it until they receive the final. Thank you!

Hi Amy:

You're not being picky...The feedback is good...That's because they were cut & paste... :) I was working from home last night and had to work with what I had...I will set up my VPN tonight and get the original file and fix it...

In the meantime, while we're traveling & I don't have access to my computer, can I forward the draft to our contacts at Genesee local health for any comments from them, so I can update everything at once? Do you mind?

Sorry if it seems like we are being picky, but the people in the attached file look like they have a fuzzy border around them. It's almost like the images were and cut and pasted from something.

Subject: RE: Preliminary & Deliberative Not Subject to FOIA : Infographic for Flint

Hello all:

Per Kory's directive, I'm attaching the updated infographic with more visible people. I also am attaching a version with no background color...

For what it's worth, I never really intended on this being printed on a personal printer. I meant for it to be used as a social media tool, website doc, and/or professionally printed and distributed as a poster to partners and doctors' offices, etc...

However, if we think that people will print it out themselves, the version with no background color at all will probably be better to distribute so that people who print it can save their ink...

Please let me know if you want me to make additional changes. ☺

Thanks!

Kory – our concern before was that the document would not print off well in black and white. On the revised copy, the white outlined people are really faint now. We can barely see them. All we can really see is the unborn baby.

Any improvements you could make to that so it will print off better?

Subject: RE: Preliminary & Deliberative Not Subject to FOIA : FAQ for Genesee County Health Department

My only concern/comment on the infographic is that it is extremely dark to read when printed on a non-color printer and if this is a resource we want people printing it may not be so easy to read as it stands now.

You may want to consider lightening the background of the four text boxes that still have the dark background behind the text.

You also have far more text on this document than we probably should for an infographic, but when it is easier to read that should help a bit.

Thanks--g

All,

Attached is the revised fact sheet and the Infographic I mentioned at yesterday's briefing. Please note that the Genesee County logo was pulled from the internet: GCHD may have a different one they would like to use. We'll send these materials to them for final review once we're good to go internally.

Linda

Just a few edits that we have in the attached. Amy has put our edits on "sticky notes" in the attached pdf so please refer to those for our comments and edits.

Please make sure we get the final version so we can also provide to partners, etc.

Thank you.
