Subject: RE: Sit Rep report 192 Kids

I currently have 187 children on the Master List for Flint.

Of those 187 children:

111 are Medicaid-eligible now and at time of EBL (59%)

11 were Medicaid-eligible at time of EBL, but not currently (6%)

6 were Medicaid-eligible previously, but not at time of EBL or currently (3%)

59 were never Medicaid-eligible (32%)

Subject: Sit Rep report 192 Kids

On sit rep report, we report 181 kids (age 0-5) with elevated lead level and 11 kids (age 6-17).

Of these 192 kids, how many have Medicaid coverage? This may be a Bob Scott question, but would like answer asap so let me know if we need Medicaid to assist in determining.
