Pam,

Please see attached for the latest 2014 data, which can be considered "final." It hasn't been made into a complete data report, or distributed widely—still trying to get there.

Bob

Subject: Re: Childhood Blood Lead Levels

Greetings Bob,

Can you tell me if these are the most up-to-date and accurate figures for Saginaw County/Saginaw City:

Childhood Blood Lead Level (BLL) (Percentage)²	2014	Target
Children ≥ 5 years old Tested for BLL	3,668 (26.1%)	
Children ≥ 5 years with BLL ≥ 10 µg/dL	13 (0.35%)	0**
Children ≥ 5 years with BLL ≥ 5 µg/dL	121 (3.3%)	

This data is needed for our Saginaw County Community Health Improvement Planning work. Thanks.

Pamela L. Pugh, DrPH, MS
