Amanda,

Please see four attached files. We've had ongoing website issues, so the 2013 data report has never been posted. The other three files are for 2014, but we don't have a comprehensive data report yet for 2014.

Let me know if you have questions.

Bob

Subject: Michigan Healthy Homes & Lead Poisoning Prevention Data

Hi Robert,

My name is Amanda Reed and I work at United Way for Southeastern Michigan in Early Childhood Education. I was reading about the work the Healthy Homes & Lead Poisoning Prevention program has done, and I noticed the most recent data on the MDCH website is from 2012. **Is there updated information that is available on lead poisoning statistics in Michigan for children? Also, do these reports have different age segments for children (0-1 years, 1-2 years, etc.)?**

Any information you can provide would be much appreciated. We are looking to create a snapshot of how lead poisoning may be correlated with developmental outcomes of children in our region.

Thank you, and I look forward to hearing from you,

Amanda Reed
