Let me know if you want someone from your area looped into these case management/follow up meetings. I think it would be a good idea.

Today's draft- early next week the primary group will meet to plan case management planning. We will work on Nancy and Bob's questions in interim.

Wes- please advise as to exactly what information you would want to collect on any child getting a blood test/ in the event further case management or abatement is required-

Eden.
