Again, this is not a big ask.....but it is more to feed the Karens' need for names in boxes.

Subject: Hey, LGV
Importance: High

Karen K. is pretty insistent that we get a lead doc identified here as a resource for the LGV investigation. This is what it is. I don't believe that it will be a hugely demanding responsibility and I know that Karen K has been in contact with Eden already, but I also know that Eden is swimming in Flint water right now so here's my question.

Would you all be alright with a transition of medical contact for this deal from Eden to Jevon.

Just say yes and I'll make it happen.

Jim
