Subject: FW: water filter distribution

Importance: High

Guys – please share an update on this asap.

Also, have heard from CBS Evening News. They'll be in Flint today and tomorrow. Need to chat with you about that.

Please call as soon as can.

Thanks much,
SW

Subject: water filter distribution

Sara:
I'm expecting to write a story about the efforts to distribute water filters that have so far come into Flint from several sources.
Are the state-funded filters being distributed through the Genesee County Health Department and United Way or through state offices such as the Department of Human Services, or both?
Have the state-funded filters begun to arrive in Flint and does your office want to comment on the efforts to distribute the filters so far?
You may have heard that the initial distribution was expanded Saturday to include all residents because there were far more filters than low income families that qualified who turned out to request one.
Thanks for your help.
Call is it's easier
