Subject: RE: Flint funding question.

Importance: High

Hi there John -

What I'd say is that this is an option we're helping thoroughly review and consider with the city, and the technical advisory committee's work is much appreciated in this matter. We're also focused on working hard in collaboration with all and implementing the key action steps outlined on Oct. 2 to help protect public health and ensure safe, accessible drinking water for Flint residents.

We have slated a time tomorrow morning for the Governor and administration with city and community leaders to provide an update overall on Flint water so hoping you got those details. (Just let me know if you did not).

Thanks and best,
SW

Subject: Flint funding question.

Sara and Brad:

You may have seen that the technical advisory committee today recommended that Flint reconnect to Detroit's water system.

Walling claims that will cost \$12 million over nine months. He's asking the governor in the legislature to come up with the money.

Can we get a comment from the governor ASAP?

I'd appreciate it.

John
