Subject: Fwd: Contaminated Drink Water if Flint

I have become increasingly concerned about the situation in Flint and the lack of empathy for the residents. I'm not sure that buying water from Ice Mountain or Bill Young makes sense and I don't know about Meijer since they buy it from Bill or local sources and repackage. But, it would seem to me that buying some and giving it to residents who are having discoloration or smell issues would be fair and prudent until it gets ironed out. Maybe this doesn't make any sense to you and if not just chalk it up to the delirium I'm feeling from the sun and drop the idea.

Harvey feels the situation is slipping out of hand without some direct response and so does Kelly Rossman. She's talking to Beth today. I worry that swooping in may reinforce the idea that there is something wrong with the water after all. But, it seems to me that that would be small issue compared to blowing off these ministers and their concerns. Of course, we can't supply the water forever so maybe working with Wayne something can be figured out.

I was going to call Mark Murray as a start. Do you have any water contacts at Ice Mtn etc i can call?

Might want to get Jarrod and Terry Stanton on this as well as Harvey. Otherwise it will get out of hand. It's in the city's long term interest to make the KWA work and we can make the river water safe, but we need to work with the ministers this week to help them out. It's tough for everyday people to listen to financial issues and water mumbo jumbo when all they see is problems. You can't expect the ministers to hold the tide on this problem.

How about cutting a deal with Ice Mountain or Bill Young and buying some water for the people for a time? \$250K buys a lot of drinking water and we could distribute it through the churches while we continue to make the water even safer.

If we procrastinate much longer in doing something direct we'll have real trouble.

Please call me so we can discuss. This issue is out of hand. We do pro bono work for the city on an as-needed basis, plus we also work for Veolia, the water consultant they brought on board. I'm concerned about the implications that this may have racial overtones. Ugh.

Good Afternoon, Attorney Randall!

Thank you for returning my call on the other day! Again, my concern as is others in the City of Flint, Michigan regarding the drinking water source for the water customers of the City of Flint. I have enclosed one of the lastest article written by the local newspaper, "The Flint Journal" regarding the Flint River water. Needless to say, the water is dangerous to our health! GM will not use the water at its Engine Plant in Flint to wash engines parts!

We need your help to guide us to the profession people that know about "Bad Drinking Water and Environmental Racism". I truly believe it's "Environmental Racism" at its worst or should I say best! As a resident of flint, Past President of the Flint Branch NAACP, newly elected VP of the Flint Branch NAACP and the most listen to broadcast host during that time on Flint's premiere gospel station, WFLT 1420AM, each Saturday morning from 9:30-10AM, I have challenged our elected officials to step up to the plate and fix this water problem!

I'll be asking the Executive Committee of the Flint Branch of the NAACP to request from our National Office if we can proceed with a possible "Environmental Racism" lawsuit with their assistance and the assistance of other civil rights groups and others to "file briefs in support of our efforts against those parties involved with the changing and the using of the Flint River as our water drinking source.

The City of Flint has Emergency Manager #4 since our "takeover", and cares less about the residents or the water concerns of its Customers of Flint! Please help us with our problem by directing us to the right professional people. Please go to www.actionpa.org/fluroride/ej.html <<http://www.actionpa.org/fluroride/ej.html>> regarding "Environmental Racism" I have attached an article from the Flint Journal, and may Google other articles regarding the Flint's water source, including how we arrived to where we are on today.

Thank you very much in advance!!

I remain.
