Subject: Statement from DEQ Director Dan Wyant

Regarding the meeting yesterday with Change Agent Consortium:

“We were not aware of the planned prayer vigil outside our headquarters, but we invited CAC leaders in to discuss their concerns and share information transparently.

We felt it was a positive conversation, and appreciated the chance to brief them on the unprecedented effort being made to protect Flint kids and families.

We also briefed them on the Governor’s announced Flint Water Task Force, which will perform an independent review of local, state and federal roles in what has happened in Flint and make recommendations to the governor.

I serve at the pleasure of the Administration. I believe the Governor will gather all the facts and make the right decision at the appropriate time. Until then, we at the DEQ are singularly focused on implementing the state’s plan to address lead issues in Flint and protect kids and families there.”
