Subject: FW: New ACLU video gets tough with Flint officials over lead levels | Blogs | Detroit Metro Times

This issue is a MESS. Hurley (a respective, community resource and validator) will apparently say that lead blood levels have doubled since the city moved to Flint water.

DHHS gurus going through data and whatever this new reporting/methodology is now as this is not what we've seen, heard or been told of the testing to date.

Senator Ananich has formed a new coalition to speak on the water issues in Flint. Hurley hospital will be a member of that coalition. This coalition may be competitive with the existing Clean Water Coalition where a lot of the grassroots types participate. Hurley will also work to get more residents water filters, and that may be apart of the announcement today.
