Subject: HACCP Meetings
Date: Wednesday, April 29, 2015 9:28:00 AM

I thought the hospital meetings were here – I saw something about 6 North on the first appointment and assumed it was in Con Hall. Thanks for the offer to attend. With my being out yesterday and probably on AL Friday, it would not have been easy for me to be in the field today as well and I didn't realize until you responded that I would have had to depart early and be gone the entire day.

I would like to see your presentation(s) for the hospitals and maybe consider having the material presented to/discussed with staff at the upcoming program meetings in June.

DCH doesn't appear to have building plumbing expertise, hence we agreed to assist. You can go but Mike and I are going to meet with Flint plumbing/cross conn and distribution system staff in the morning before the hospital meetings in the afternoon.

Is anyone participating from DCH? These meetings sound like activities that Liane and I have been trying to get DCH to initiate. Do you foresee us performing this role around the state, or should HACCP awareness and training be coming from the agency that regulates these customers?

Will this meeting be an opportunity to ask DCH or these hospitals if there is an agency that represents them that we can contact to discuss additional outreach activities? Does Noncommunity know about this meeting? May I attend?

Hospital meetings are part of our assistance to DHHS (DCH) and their investigations. (see attached)

I couldn't tell from your calendar. Thanks.

What's the purpose of the meetings with the Flint area hospitals? Do they have additional info or are we providing them with some?

When are you going to Jackson again? We are trying to get the exam box to Jeff. I hate to mail it if we have someone making that trip.
