Brad – did you get help on this yet? Steve's in the office today. We're in a program meeting in ConCon. Also, he does check his e-mail since he gets it on his phone.

Subject: flint's application for flint river withdrawals

Hi Brad:

I met with several Flint officials yesterday about the city's application for Flint River withdrawals, which they submitted last week.

I'm interested in getting a copy of that application if I can in advance of the permit being acted on.

I'm also interested in knowing the outcome as soon as possible.

What's my best course of action?
